Members of the Board of Supervisors
Jackson County, Mississippi

Dear Board Members:

We are pleased to submit to you the 2011 financial and compliance audit report for Jackson County. This audit was performed pursuant to Section 7-7-211(e), Mississippi Code Ann. (1972). The audit was performed in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

We appreciate the cooperation and courtesy extended by the officials and employees of Jackson County throughout the audit. Thank you for working to move Mississippi forward by serving as a supervisor for Jackson County. If we can be of any further assistance, please contact Michael E. Guel or Sande W. Hentges at (228) 863-6501.

Respectfully submitted,

Wright, Ward, Hatten and Guel, CPAs

JACKSON COUNTY, MISSISSIPPI

INDEPENDENT AUDITORS' REPORT

February 4, 2013

To the Members of the Board of Supervisors
Jackson County, Mississippi

We have audited the accompanying financial statements of the government activities, the business-type activities, each major fund, and the aggregate remaining fund information of Jackson County, Mississippi, as of and for the year ended September 30, 2011, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As discussed in Note 1(I) to the financial statements, management has not maintained adequate subsidiary records documenting the existence, completeness and valuation of capital assets and, accordingly, has not recorded the appropriate depreciation expense on those assets. Accounting principles generally accepted in the United States of America require that adequate records be maintained to document the existence, completeness, and valuation of capital assets including the County's infrastructure, and also that the depreciation on capital assets, including infrastructure, be adequately documented. The amount by which this departure would affect the assets, net assets, and expenses of the government activities is not reasonably determinable.

The financial statements do not include financial data for the County's legally separate component units. Accounting principles generally accepted in the United States of America require the financial data for those component units to be reported with the financial data of the County's primary government unless the County also issues financial statements for the financial reporting entity that include the financial data for its component units. The County has not issued such reporting entity financial statements. The amount by which this departure would affect the assets, liabilities, net assets, revenues, and expenses of the aggregate discretely presented component units is not reasonably determinable.

In our opinion, because of the omission of the discretely presented component units, as discussed previously, the financial statements referred to previously do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the aggregate discretely presented component units of Jackson County, Mississippi, as of September 30, 2011 or the changes in the financial position thereof for the year then ended.

In addition, in our opinion, except for the effects of the matter discussed in the third paragraph, the financial statements referred to previously present fairly, in all material respects, the financial position of the governmental activities of Jackson County, Mississippi, as of September 30, 2011, and the changes in the financial position thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Finally, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, each major fund, and the aggregate remaining fund information of Jackson County, Mississippi as of September 30, 2011, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 2, the County adopted the provisions of Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund type Definitions*.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 4, 2013, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Jackson County, Mississippi has not presented Management's Discussion and Analysis, which is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board.

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on pages 35 through 36 and the Schedule of Funding Progress – Other Postemployment Benefits on page 37 be presented to supplement the basic financial statements, Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's response to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Jackson County, Mississippi's financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the financial statements. The schedule of expenditures of federal awards is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Wayne Ward, CPA & Partner

JACKSON COUNTY, MISSISSIPPI
Reconciliation of Governmental Fund Balance to the Statement of Net Assets
September 30, 2011

Exhibit 3-1

Total funds balance - Governmental Funds	\$ 46,172,484
Amounts reported for governmental activities in the Statement of Net Assets are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds (See Note 8).	131,147,132
Other long-term assets are not available to pay for current period expenditures and, therefore, are deferred in the funds.	6,117,585
Long-term liabilities are not due and payable in the current period expenditures and therefore are not reported in the funds.	(52,967,240)
Other postemployment benefits are not due and payable in the current period and, therefore, are not reported in the funds	(373,791)
Accrued interest not due and payable in the current period expenditures and, therefore, not reported in the funds.	(477,078)
Internal service funds are used by management to charge costs of insurance to individual funds. The assets and liabilities of the Internal Service Funds are included in governmental activities in the Statement of Net Assets	2,493,999
Bond issuance cost, net of amortization	374,990
Prepaid items, such as prepaid insurance, are accounted for as expenditures in the period of acquisition and, therefore, are not reported in the funds.	<u>706,191</u>
Total Net Assets - Governmental Activities	<u>\$ 133,194,272</u>

The notes to the financial statement are an integral part of this statement.

The notes to the financial statements are an integral part of this statement.

JACKSON COUNTY, MISSISSIPPI
 Reconciliation to the Statement of Revenues, Expenditures
 and Changes in Fund Balances of Governmental Funds to the Statement of Activities
 For the Year Ended September 30, 2011

Exhibit 4-1

Net changes in fund balances -governmental funds \$ 3,873,927

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays \$34,992,163 exceeded depreciation expense \$4,405,918. 30,586,245

In the Statement of Activities, only gains and losses from the sale of capital assets are reported, whereas in the Governmental Funds, proceeds from the sale of capital assets increase financial resources. Thus, the change in net assets differs from the change in fund balances by the amount of the net loss of \$85,117 and the proceeds from the sale of \$38,979 in the current period. (46,138)

Fine revenue recognized on the modified accrual basis in the funds during the current year is reduced because prior year recognition would have been required on the Statement of Activities using the full accrual basis of accounting. 106,268

Debt proceeds provide current financial resources to Governmental Funds, but issuing debt increases long-term liabilities in the Statement of Net Assets. Repayment of debt principal is an expenditure in the Governmental Funds, but the repayment reduces long-term liabilities in the Statement of Net Assets. Thus, the change in net assets differs from the change in fund balances by the amount that debt proceeds of \$9,296,208 exceeded debt repayments of \$6,966,438. (2,329,770)

Under the modified accrual basis of accounting used in the Governmental Funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. However, in the Statement of Activities, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is recognized under the modified accrual basis of accounting when due, rather than as it accrues. Thus, the change in net assets differs from the change in fund balances by a combination of the following items:

Bond issue cost amortization	(166,393)
Bond premium amortization	32,528
Change in accrued interest payable	1,174,145
Change in compensated absences	19,819

An Internal Service Fund is used by management to charge the cost of insurance to individual funds. The net revenue (expense) is reported within the governmental activities. 862,432

Prepaid items, such as prepaid insurance, are accounted for as expenditures in the period of acquisition and, therefore, are not reported in the funds. (217,535)

Change in net assets of governmental activities \$ 33,895,528

The notes to the financial statements are an integral part of this statement.

Jackson County, Mississippi
Notes to the Financial Statements
For the Year Ended September 30, 2011

(1) Summary of Significant Accounting Policies

A. Financial Reporting Entity.

Jackson County is a political subdivision of the State of Mississippi. The County is governed by an elected five-member Board of Supervisors. Accounting principles generally accepted in the United States of America require Jackson County to present these financial statements on the primary government and its component units which have significant operational or financial relationships with the County.

Management has chosen to omit from these financial statements the following component units which have significant operational or financial relationships with the County. Accordingly, the financial statements do not include the data of all of the County's component units necessary for reporting in conformity with accounting principles generally accepted in the United States of America.

- Signing River Mental Health/Mental Retardation Services
- Jackson-George Regional Library System
- Jackson County Port Authority
- Gulf Park Estates – St. Andrews Fire District
- Singing River Hospital System
- West Jackson County Utility District
- Jackson County Emergency Communications District

State law pertaining to County government provides for the independent election of County officials. The following elected and appointed officials are all part of the County legal entity and therefore are reported as part of the primary government financial statements.

- Board of Supervisors
- Chancery Clerk
- Circuit Clerk
- Justice Court Clerk
- Purchase Clerk
- Tax Assessor
- Tax Collector
- Sheriff

B. Basis of Presentation.

The County's basic financial statements consist of government-wide statements, including a Statement of Net Assets and a Statement of Activities, fund financial statements and accompanying note disclosures which provide a detailed level of financial information.

Government-wide Financial Statements:

The Statement of Net Assets and Statement of Activities display information concerning the County as a whole. The statements include all nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are generally financed through taxes, intergovernmental revenues and other nonexchange revenues and are reported separately from business-type activities. Business-type activities rely mainly on fees and charges for support.

Jackson County, Mississippi
Notes to the Financial Statements
For the Year Ended September 30, 2011

(1) Summary of Significant Accounting Policies (continued)

The Statement of Net Assets presents the financial condition of the governmental activities and business – type activities of the County at year-end. The Government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each function or program of the County’s governmental and business-type activities. Direct expenses are those that are specifically associated with a service, program or department and therefore, are clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other revenues not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. Internal service fund balances have been eliminated against the expenses and program revenue. The comparison of direct expenses with program revenues identifies the extent to which each governmental, or business-type, function is self-financing or draws from the general revenues of the County.

Fund Financial Statements:

Fund financial statements of the County are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues and expenditures/expenses. Funds are organized into governmental, proprietary and fiduciary. Major individual Governmental Funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column.

C. Measurement Focus and Basis of Accounting.

The Government-wide, Proprietary Fund and Fiduciary Funds (excluding agency funds) financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used, regardless of when the related cash flows take place. Property taxes are recognized as revenue in the year for which they are levied. Shared revenues are recognized when the provider government recognizes the liability to the County. Grants are recognized as revenues as soon as all eligibility requirements have been satisfied. Agency funds have no measurement focus, but use the accrual basis of accounting.

The County’s Proprietary Fund applies all applicable Governmental Accounting Standards Board (GASB) pronouncements and only the following pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

The revenues and expenses of Proprietary Funds are classified as operating or non-operating. Operating revenues and expenses generally result from providing services in connection with a Proprietary Fund’s primary operations. All other revenues and expenses are reported as non-operating.

Jackson County, Mississippi
Notes to the Financial Statements
For the Year Ended September 30, 2011

(1) Summary of Significant Accounting Policies (continued)

Governmental financial statements are presented using a current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized in the accounting period when they are both measurable and available to finance operations during the year or to liquidate liabilities existing at the end of the year. Available means collected in the current period or within 60 days after year end to liquidate liabilities existing at the end of the year. Measurable means knowing or being able to reasonably estimate the amount. Expenditures are recognized in the accounting period when the related fund liabilities are incurred. Debt service expenditures and expenditures related to compensated absences and claims and judgments, are recognized only when payment is due. Property taxes, state appropriations and federal awards are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period.

The County reports the following major Governmental Funds:

General Fund - This fund is used to account for all activities of the general government and report all financial resources not accounted for and reported in another fund.

Road Fund - This fund is used to account for revenues from specific revenue sources that are restricted for construction and maintenance of the County's roads.

Additionally, the County reports the following fund types:

GOVERNMENTAL FUND TYPES

Special Revenue Funds - These funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Debt Service Funds - These funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Capital Projects Funds - These funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

PROPRIETARY FUND TYPE

Enterprise Funds - These funds are used to account for those operations that are financed and operated in a manner similar to private business enterprises or where the County has decided that periodic determination of revenues earned, expenses incurred and/or net income is necessary for management accountability.

Internal Service Funds - These funds are used to account for those operations that provide services to other departments or agencies of the government, or to other governments, on a cost-reimbursement basis. The County's internal service fund reports on self-insurance programs for employee medical benefits.

FIDUCIARY FUND TYPE

Agency Funds - These funds account for various taxes, deposits and other monies collected or held by the County, acting in the capacity of an agent, for distribution to other governmental units or designated beneficiaries.

Jackson County, Mississippi
Notes to the Financial Statements
For the Year Ended September 30, 2011

(1) Summary of Significant Accounting Policies (continued)

D. Account Classifications.

The account classifications used in the financial statements conform to the broad classifications recommended in Governmental Accounting, Auditing and Financial Reporting as issued in 2005 by the Government Finance Officers Association.

E. Deposits and Investments.

State law authorizes the County to invest in interest bearing time certificates of deposit for periods of fourteen days to one year with depositories and in obligations of the U.S. Treasury, State of Mississippi, or any County, municipality or school district of this state. Further, the County may invest in certain repurchase agreements.

Cash includes cash on hand, demand deposits, and all certificates of deposit and cash equivalents, which are short-term highly liquid investments that are readily convertible to cash (generally three months or less). Investments in governmental securities are stated at fair value.

F. Receivables.

Receivables are reported net of allowances for uncollectible accounts, where applicable.

G. Interfund Transactions and Balances.

Transactions between funds that are representative of short-term lending/borrowing arrangements and transactions that have not resulted in the actual transfer of cash at the end of the fiscal year are referred to as "due to/from other funds." Noncurrent portions of interfund receivables and payables are reported as "advances to/from other funds." Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserves account in applicable Governmental Funds to indicate that they are not available for appropriation and are not expendable available financial resources. Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Assets. Any outstanding balances between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

H. Prepaid Items.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Prepaid items, such as prepaid insurance, are not reported for Government Fund Types since the costs of such items are accounted for as expenditures in the period of acquisition.

I. Capital Assets.

Capital acquisition and construction are reflected as expenditures in Governmental Fund statements and the related assets are reported as capital assets in the applicable governmental or business-type activities column in the government-wide financial statements. However, the County did not maintain adequate subsidiary records documenting the existence, completeness and valuation of capital assets or records documenting the County's infrastructure. All purchased capital assets are stated at historical cost where records are available and at an estimated historical cost where no records exist. Capital assets include significant amounts of infrastructure which have been valued at estimated historical cost. The estimated historical cost was based on replacement cost multiplied by the consumer price index implicit price deflator for the year of acquisition. The extent to which capital assets, other than infrastructure costs, have been estimated and the methods of estimation are not readily available.

Jackson County, Mississippi
Notes to the Financial Statements
For the Year Ended September 30, 2011

(1) Summary of Significant Accounting Policies (continued)

Donated capital assets are recorded at estimated fair market value at the time of donation. The costs of normal maintenance and repairs that do not add to the value of assets or materially extend their respective lives are not capitalized; however, improvements are capitalized. Interest expenditures are not capitalized on capital assets.

Capital assets acquired or constructed for Proprietary Fund operations are capitalized at cost in the respective funds in which they are utilized. No interest is capitalized on self-constructed assets because noncapitalization of interest does not have a material effect on the County's financial statements. Donated capital assets are recorded at their fair value at the time of donation.

Capitalization thresholds (dollar value above which asset acquisitions are added to the capital asset accounts) and estimated useful lives are used to report capital assets in the government-wide statements and proprietary funds statements. Depreciation is calculated on the straight-line basis for all assets, except land. A full year's depreciation expense is taken for all purchases and sales of capital assets during the year. The following schedule details those thresholds and estimated useful lives:

	<u>Capitalization Thresholds</u>	<u>Estimated Useful Life</u>
Land	\$ 0	N/A
Infrastructure	0	20-50 years
Buildings	50,000	40 years
Improvements other than buildings	25,000	20 years
Mobile equipment	5,000	5-10 years
Furniture and equipment	5,000	3-7 years
Leased property under capital leases	*	*

* Leased property capitalization policy and estimated useful life will correspond with the amounts for the asset classification, as listed above.

J. Long-term Liabilities.

Long-term liabilities are the unmatured principal of bonds, loans, notes or other forms of noncurrent or long-term general obligation indebtedness. Long-term liabilities are not limited to liabilities from debt issuances, but may also include liabilities on lease-purchase agreements and other commitments.

In the government-wide financial statements and in the Proprietary Fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or Proprietary Funds Statement of Net Assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

K. Equity Classifications.

Government-wide Financial Statements:

Equity is classified as net assets and displayed in three components:

Invested in capital assets, net of related debt - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings attributable to the acquisition, construction or improvement of those assets.

Jackson County, Mississippi
Notes to the Financial Statements
For the Year Ended September 30, 2011

(1) Summary of Significant Accounting Policies (continued)

Restricted net assets - Consists of net assets with constraints placed on the use either by external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or law through constitutional provisions or enabling legislation.

Unrestricted net assets - All other net assets not meeting the definition of "restricted" or "invested in capital assets, net of related debt."

Fund Financial Statements:

Fund balances for governmental funds are reported in classifications that compromise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Government fund balance is classified as nonspendable, restricted, committed, or unassigned. The following are descriptions of fund classifications used by the County:

Nonspendable fund balance includes amounts that are not in a spendable form or are required to be maintained intact.

Restricted fund balance includes amounts that have constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.

Committed fund balance includes amounts that can be used only for specific purposes pursuant to constraints imposed by a formal action of the Board of Supervisors, the County's highest level of decision-making authority. This formal action is an order of the Board of Supervisors as approved in the board minutes.

Assigned fund balance includes amounts that are constrained by the County's intent to be used for a specific purpose, but are neither restricted nor committed. For governmental funds, other than the general fund, this is the residual amount within the fund that is not classified as nonspendable and is neither restricted nor committed. Assignments of fund balance are created by the Board of Supervisors pursuant to authorization established by Section 19-3-59, Miss. Code Ann. (1972).

Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the general fund. The general fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds if expenditures incurred for specific purposes exceeded the amounts restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned or unassigned) resources are available, it is the County's general policy to use restricted resources first. When expenditures are incurred for purposes for which unrestricted (committed, assigned and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the County's general policy to spend committed resources first, followed by assigned amounts, and the unassigned amounts.

L. Property Tax Revenues.

Numerous statutes exist under which the Board of Supervisors may levy property taxes. The selection of authorities is made based on the objectives and responsibilities of the County. Restrictions associated with property tax levies vary with the statutory authority. The amount of increase in certain property taxes is

Jackson County, Mississippi
Notes to the Financial Statements
For the Year Ended September 30, 2011

(1) Summary of Significant Accounting Policies (continued)

limited by state law. Generally, this restriction provides that these tax levies shall produce no more than 110% of the amount which resulted from the assessments of the previous year.

The Board of Supervisors, each year at a meeting in September, levies property taxes for the ensuing fiscal year which begins on October 1. Real property taxes become a lien on January 1 of the current year, and personal property taxes become a lien on March 1 of the current year. Taxes on both real and personal property, however, are due on or before February 1 of the next succeeding year. Taxes on motor vehicles and mobile homes become a lien and are due in the month that coincides with the month of original purchase.

Accounting principles generally accepted in the United States of America require property taxes to be recognized at the levy date if measurable and available. All property taxes are recognized as revenue in the year for which they are levied. Motor vehicle and mobile home taxes do not meet the measurability and collectability criteria for property tax recognition because the lien and due date cannot be established until the date of original purchase occurs.

M. Intergovernmental Revenues in Governmental Funds.

Intergovernmental revenues, consisting of grants, entitlements and shared revenues, are usually recorded in Governmental Funds when measurable and available. However, the "available" criterion applies for certain federal grants and shared revenues when the expenditure is made because expenditure is the prime factor for determining eligibility. Similarly, if cost sharing or matching requirements exist, revenue recognition depends on compliance with these requirements.

N. Compensated Absences.

The County has adopted a policy of compensation for accumulated unpaid employee personal leave. No payment is authorized for accrued major medical leave. Accounting principles generally accepted in the United States of America require accrual of accumulated unpaid employee benefits as long-term liabilities in the government-wide financial statements and proprietary fund financial statements. In fund financial statements, Governmental Funds report the compensated absence liability payable only if the payable has matured, for example an employee resigns or retires.

(2) Changes in Accounting Standards

For the fiscal year ended September 30, 2011, the County implemented Governmental Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This statement enhances the usefulness of fund balance information by providing clear fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. The fund balance amounts for governmental funds have been reclassified in accordance with GASB Statement No. 54. As a result, amounts previously reported as reserved and unreserved are now reported as nonspendable, restricted, committed, assigned, or unassigned.

Jackson County, Mississippi
Notes to the Financial Statements
For the Year Ended September 30, 2011

(3) Prior Period Adjustments

Exhibit 2 – Statement of Activities

A summary of significant fund equity adjustments is as follows:

Explanation	Amount
To correct a prior year error in recording capital assets.	17,240,483
To correct a prior year error in recording revenues.	(452,427)
Total prior period adjustments	\$ 16,788,056

Exhibit 4 – Statement of Revenues, Expenditures and Changes in Fund Balances – Governmental Funds.

Explanation	Amount
To correct a prior year error in recording revenues and expenses.	(452,427)
Total prior period adjustments	\$ (452,427)

Enterprise Funds had prior period adjustments of \$11,638 to correct prior year errors in recording revenues and expenses.

(4) Deposits and Investments

Deposits:

The carrying amount of the County's total deposits with financial institutions at September 30, 2011, was \$54,945,314, and the bank balance was \$55,721,591. The collateral for public entities' deposits in financial institutions are held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation (FDIC).

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of the failure of a financial institution, the County will not be able to recover deposits or collateral securities that are in the possession of an outside party. The County does not have a formal policy for custodial credit risk. However, the Mississippi State Treasurer manages that risk on behalf of the County. Deposits above FDIC coverage are collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the County.

Investments:

As provided in Section 91-13-8, Miss. Code Ann. (1972), the following investments of the County are handled through a trust indenture between the County and the trustee related to the operations of the Jackson County, Mississippi Tort Claims Trust.

Jackson County, Mississippi
Notes to the Financial Statements
For the Year Ended September 30, 2011

(4) Deposits and Investments (continued)

As of September 30, 2011, investment balances and maturities for the Jackson County Tort Claims Trust are as follows:

	<u><1 year</u>	<u>6-10 years</u>	<u>>10 years</u>	<u>Total</u>	<u>Rating</u>
Hancock Horizons*	\$ 40,362			40,362	AAAm
GNMA Pools		101,034	123,603	224,637	AAA
U.S. Treasury Notes	193,093	579,154		772,247	AAA
Total	\$ 233,455	680,188	123,603	1,037,246	

*Hancock Horizons Treasury Securities Money Market Mutual Fund

Interest Rate Risk. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. State law limits investments to those authorized by Sections 19-9-29 and 91-13-8, Miss. Code Ann. (1972). The County does not have a formal investment policy that would further limit its investments choices or one that addresses credit risk.

Custodial Credit Risk – Investments. Custodial credit risk is the risk that in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The County does not have a formal policy for custodial credit risk. The investments in the Hancock Horizon. Treasury Securities Money Market Mutual Fund are uninsured and unregistered and are not backed by the full faith and credit of the federal government. The investments in the U.S. Treasury Notes were held by the investment's counter party (trustee) not in the name of the County.

(5) Interfund Transactions and Balances

The following is a summary of interfund balances at September 30, 2011:

A. Due From/To Other Funds:

<u>General Fund</u>	<u>Other Governmental Funds</u>	<u>\$</u>	<u></u>
Road Fund	General Fund	4,173,639	
Other Governmental Funds	General Fund	263,083	
Agency Funds	General Fund	261,905	
		111,847	
Total		\$ 4,810,474	

The receivables represent the tax revenue collected, but not settled until October 2011. All interfund balances are expected to be repaid within one year from the date of the financial statements.

B. Advances From/To Other Funds:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund	Other Governmental Funds	\$ 3,617,968
Total		\$ 3,617,968

Advances from the other governmental funds represent loans made to funds in the anticipation of grant receipts.

Jackson County, Mississippi
Notes to the Financial Statements
For the Year Ended September 30, 2011

(5) Interfund Transactions and Balances (continued)

C. Transfers In/Out:

Transfer In	Transfer Out	Amount
General Fund	Other Governmental Fund	\$ 558,181
Road Fund	Other Governmental Fund	1,550,000
Other Governmental Funds	General Fund	44,982
Other Governmental Funds	Other Governmental Fund	2,750,932
Non-major Enterprise Funds	General Fund	194,477
Total		<u>\$ 5,098,572</u>

The principal purpose of interfund transfers was to provide funds for grant matches or for cash flow purposes. All interfund transfers were routine and consistent with the activities of the fund making the transfer.

(6) Intergovernmental Receivables

Intergovernmental receivables at September 30, 2011, consisted of the following:

Description	Amount	
Governmental Activities:		
Legislative tax credit	\$ 694,183	
Port Security	274,714	
State and community highway safety	1,519	
Public safety partnership and community policing grants	17,103	
Child nutrition grants	1,958	
Coastal impact assistance grant	112,913	
EECBG grant	23,311	
Alcohol open container requirements grant	1,750	
Hazard materials grant	55,000	
Highway planning and construction - STP grant	26,501	
Hazard mitigation grant (1604-0044)	1,404,785	
Hazard mitigation grant (1604-0345)	901,375	
Hazard mitigation grant (1604-0346)	1,261,171	
Hazard mitigation grant (1604-0204)	293,424	
Community development black grants/states program (R-103-030-04-KED)	29,567	
Community development black grants/states program (R-103-030-01-KCR)	517,024	
Community development black grants/states program (R-103-030-06-KED)	132,806	
Community development black grants/states program (R-103-030-05-KED)	1,202,513	
Community development black grants/states program (R-103-030-03-KED)	19,750	
Total		<u>\$ 6,971,367</u>

(7) Loans Receivable

Loans receivable balances at September 30, 2011, are as follows:

Description	Date of Loan	Interest Rate	Maturity Date	Receivable Balance
Sandco Industries*	10/1/1991	4.00%	11/4/2004	\$ 50,000
Bayou Blend*	9/22/1994	4.00%	9/1/1999	86,254
Lagniappe House	12/2/1997	4.00%	2/1/2007	39,530
Total				175,784
Less: Allowance for doubtful accounts*				(136,254)
Total (Net of allowance for doubtful accounts)				<u>\$ 39,530</u>

(9) Claims and Judgments

Risk Financing.

Workers Compensation Benefits.

The County finances its exposure to risk of loss related to workers' compensation for injuries to its employees through the Mississippi Public Entity Workers' Compensation Trust, a public entity risk pool. The County pays premiums to the pool for its workers' compensation insurance coverage, and the participation agreement provides that the pool will be self-sustaining through member premiums. The retention for the pool is \$1,000,000 for each accident and completely covers statutory limits set by the Workers' Compensation Commission. Risk of loss is remote for claims exceeding the pool's retention liability. However, the pool also has catastrophic reinsurance coverage for statutory limits above the pool's retention, provided by Safety National Casualty Corporation, effective from January 1, 2011, to January 1, 2012. The pool may make an overall supplemental assessment or declare a refund depending on the loss experience of all the entities it insures.

Health and Life Benefits.

The County is exposed to risk of loss relating to employee health, accident and dental coverage. Beginning in 1990 and pursuant to Section 25-15-101, Miss. Code Ann. (1972), the County established a risk management fund (included as an Internal Service Fund) to account for and finance its uninsured risk of loss. Each participating public entity, including Jackson County, pays the premium on a single coverage policy for its respective employees. Employees desiring additional and/or dependent coverage pay the additional premium through a payroll deduction. Premium payments to the risk management fund are determined on an actuarial basis. The County has a minimum uninsured risk retention to the extent that actual claims submitted exceed the predetermined premium. The County has implemented the following plans to minimize this potential loss:

The County has purchased coinsurance which functions on specific stop loss coverage. This coverage is purchased from an outside commercial carrier. For the current fiscal year, the specific coverage begins when an individual participant's claim exceeds \$125,000.

Jackson County, Mississippi
Notes to the Financial Statements
For the Year Ended September 30, 2011

(9) Claims and Judgments (continued)

Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). At September 30, 2011, the amount of these liabilities was \$505,578. An analysis of claims activities is presented below:

		Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance at Fiscal Year End
2008 – 2009	\$	331,812	5,779,245	5,791,411	319,646
2009 – 2010	\$	319,646	5,744,384	5,586,799	477,231
2010 – 2011	\$	477,231	5,681,822	5,653,475	505,578

Tort Liability.

The County has chosen to manage tort claims through the retention of liability exposure up to \$250,000 per occurrence in accordance with Section 11-46-17, Miss. Code Ann. (1972), Jackson County has submitted its annual plan of coverage against exposure to the risk of tort claims to the Mississippi Tort Claims Board and has received approval for its plan of coverage from the Tort Claims Board. Jackson County also purchases commercial insurance protection for coverage in excess of the retention amount noted above.

(10) Other postemployment Benefits

Plan Description

The Jackson County Board of Supervisors administers the County's health insurance plan which is authorized by Sections 25-15-101 et seq., Mississippi Code Ann. (1972). The County's health insurance plan may be amended by the Jackson County Board of Supervisors. The County purchases health insurance coverage from a commercial insurance company and offers health insurance benefit coverage through the County's health insurance plan (the Plan).

Since retirees may obtain health insurance by participating in a group with active employees and consequently receive a health insurance premium rate differential, the County has a postemployment healthcare benefit reportable under GASB Statement 45 as a single employer defined benefit health care plan. Effective October 1, 2009, the County implemented GASB Statement 45 prospectively, which requires reporting on an accrual basis the liability associated with other postemployment benefits. The County does not issue a publicly available financial report for the Plan.

Funding Policy

Employees' premiums are funded by the County with additional funding provided by retired employees and by active employees for spouse and dependent medical coverage. The Plan is financed on a pay-as-you-go basis. The Board of Supervisors, acting in conjunction with the commercial insurance company, has the sole authority for setting health insurance premiums for the County's health insurance plan.

Per Section 25-15-103, Mississippi Code Ann. (1972), any retired employee electing to purchase retiree health insurance must pay the full cost of the insurance premium monthly to the County. For the year ended September 30, 2011, retiree premiums range from \$642 to \$891 depending on dependent coverage and Medicare eligibility.

Jackson County, Mississippi
Notes to the Financial Statements
For the Year Ended September 30, 2011

(10) Other postemployment Benefits (continued)

Actuarial Valuation

The County's Health Insurance Plan's Report of the Actuary on the Other Postemployment Benefits Valuation was prepared as of July 1, 2010 for the years ending September 30, 2009 and 2010. The plan presently has an actuarial valuation performed biannually in order to be in compliance with GASB Statement 45, as such, actuarial information is not available for July 1, 2011.

Annual OPEB Cost and Net OPEB Obligation

The County's annual OPEB cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC was determined assuming the plan would fund the OPEB liability on a pay-as-you-go basis. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The current ARC of \$230,723 is 1.09 percent of annual covered payroll.

The following table presents the OPEB cost for the year, the amount contributed and changes in the OPEB plan for the most recent actuarial valuation prepared as of July 1, 2010:

Annual required contribution	\$	230,723
Interest on prior year net OPEB obligation		8,061
Adjustment to annual required contribution		<u>(8,484)</u>
Annual OPEB cost		230,300
Contribution made		<u>(35,640)</u>
Increase in net OPEB obligation		194,660
Net OPEB obligation - Beginning of year		<u>179,131</u>
Net OPEB obligation - End of year	\$	<u><u>373,791</u></u>

The following table provides the County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation based on the most recent actuarial valuation:

	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
2008-2009	\$ 213,074	15.93%	179,131
2009-2010	\$ 230,300	15.47%	373,791

Funding Status and Funding Progress.

The following table provides funding information for the most recent actuarial valuation date:

Actuarial Valuation Date	July 1, 2010
Actuarial Value of Plan Assets	\$ -
Actuarial Accrued Liability (AAL) Entry Age Normal	\$ 1,331,981
Unfunded AAL (UAAL)	\$ 1,331,981
Funded Ratio	0.00%
Annual Covered Payroll	\$ 21,070,951
UAAL as a Percentage of Annual Covered Payroll	6.30%

Jackson County, Mississippi
Notes to the Financial Statements
For the Year Ended September 30, 2011

(10) Other postemployment Benefits (continued)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as RSI following the notes to the financial statements, is designed to present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Additional information as of the latest actuarial valuation follows:

Actuarial valuation date	July 1, 2010
Actuarial cost method	Entry age normal
Amortization method	Level percentage, closed basis
Remaining amortization period	30 years
Asset valuation method	
Actuarial assumptions:	
Investment rate or return*	4.50%
Projected salary increases**	2.00%
Healthcare cost trend rate*	10.00%
Ultimate trend rate	5.00%
Year of ultimate trend rate	2020
*Includes inflation at	0.00%
**Includes wage inflation at	2.00%

Jackson County, Mississippi
Notes to the Financial Statements

Total	\$ 28,063,698	4,754,266	23,415,951	692,788

Legal Debt Margin – The amount of debt, excluding specific exempted debt, that can be incurred by the County is limited by state statute. Total outstanding debt during a year can be no greater than 15% of assessed value of the taxable property within the County, according to the then last completed assessment for taxation. However, the limitation is increased to 20% whenever a County issues bonds to repair or replace washed out or collapsed bridges on the public roads of the County. As of September 30, 2011, the amount of outstanding debt was equal to 1.69% of the latest property assessments.

The following is a summary of changes in long-term liabilities and obligations for the year ended September 30, 2011:

	Balance Oct. 1, 2011	Additions	Reductions	Adjustments	Balance Sept. 30, 2011	Amount due within one year
Governmental Activities:						
Compensated absences	\$ 1,398,744		19,819		1,378,925	NA
General obligation bonds	33,486,475		5,422,777		28,063,698	5,623,698
Add:						
Premiums, Net	141,194		32,528		108,666	NA
Capital Leases	651,993	696,210	167,852		1,180,351	314,327
Other loans	15,011,411	8,599,998	1,375,809		22,235,600	13,585,337
Total	\$ 50,689,817	9,296,208	7,018,785	-	52,967,240	19,523,362

Compensated absences will be paid from the fund which the employees' salaries were paid, which are generally the General Fund, Road Fund, Solid Waste Fund and Jackson County Fire District Fund.

Business-Type Activities compensated absences had a balance of \$41,386 for the year ended September 30, 2011.

(12) Contingencies

Federal Grants – The County has received federal grants for specific purposes that are subject to audit by the grantor agencies. Entitlements to these resources are generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowance resulting from a grantor audit may become a liability of the County. No provision for any liability that may result has been recognized in the County's financial statements.

Jackson County, Mississippi
Notes to the Financial Statements
For the Year Ended September 30, 2011

(12) Contingencies (continued)

Litigation – The County is party to legal proceedings, many of which occur in the normal course of governmental operations. It is not possible at the present time to estimate ultimate outcome or liability, if any, of the County with respect to the various proceedings. However, the County’s legal counsel believes that ultimate liability resulting from these lawsuits will not have a material adverse effect on the financial conditions of the County.

The County has been named as a defendant in various lawsuits seeking unspecified damages for incidents involving the Sheriff’s Department. The County has excess liability insurance coverage that it believes would cover any judgment against the County up to a limit of \$1,000,000. The policy has a \$250,000 self-insured retention. No provision has been made in the accompanying financial statements for this contingent liability since the amount of the potential loss, if any, cannot be reasonably estimated.

General Obligation Debt Contingencies – The County issued general obligation bonds and notes to provide funds for constructing and improving capital facilities of the Jackson County Port Authority, a component unit of the County. Such debt is being retired from pledged resources of the Port Authority and, therefore, is reported as a liability of the Port Authority. However, because general obligation bonds and notes are backed by the full faith, credit and taxing power of the County, the County remains contingently liable for its retirement. The principal amount of such debt outstanding at year end is as follows:

Description	Balance at Sept. 30, 2011
General obligation bonds	\$ <u>750,000</u>

Hospital Revenue Bond and Note Contingencies – The County issues revenue bonds and notes to provide funds for constructing and improving capital facilities of the Singing River Hospital. Revenue bonds and notes are reported as a liability of the hospital because such debt is payable primarily from the hospital’s pledged revenues. However, the County remains contingently liable for the retirement of these bonds and notes because the full faith, credit and taxing power of the County is secondarily pledged in case of default by the hospital. The principal amount of hospital revenue bonds and notes outstanding at September 30, 2011, is \$115,275,000.

(13) No Commitment Debt (Not Included in Financial Statements)

No commitment debt is repaid only by the entities for whom the debt was issued and includes debt that either bears the County’s name or for which a moral responsibility may exist that is not an enforceable promise to pay. No commitment debt explicitly states the absence of obligation by the County other than possibly an agreement to assist creditors in exercising their rights in the event of default. Because a default may adversely affect the County’s own ability to borrow, the principal amount of such debt outstanding at year end is disclosed as follows:

Description	Balance at Sept. 30, 2011
Industrial revenue bonds and notes	\$ <u>56,750,706</u>

Jackson County, Mississippi
Notes to the Financial Statements
For the Year Ended September 30, 2011

(14) Segment Information for Enterprise Funds

The County maintains three enterprise funds, which provide recreation and community services, rental services and food services. Summary financial information for each enterprise fund is presented for the year ended September 30, 2011.

(15) Jointly Governed Organizations

The County participates in the following jointly governed organizations:

Southern Mississippi Planning and Development District operates in a district composed of the Counties of Covington, Forrest, George, Greene, Hancock, Harrison, Jackson, Jefferson Davis, Jones, Lamar, Marion, Pearl River, Perry, Stone and Wayne. The governing body is a 27-member board of directors, one appointed by the Board of Supervisors of each member County, one from each of the six participating cities and six appointed at large by minority members. The County appropriated \$32,855 for support of Southern Mississippi Planning and Development District in fiscal year 2011.

Jackson County Civic Action is jointly governed by various public entities, as well as by certain corporations and civic groups. The Jackson County Board of Supervisors appoints two of the 15 members of the board of directors. The County appropriated \$166,000 for support of the Jackson County Civic Action in fiscal year 2011.

Gulf Regional Planning and Development District operates in a district composed of the Counties of Hancock, Harrison and Jackson. The governing body is a nine-member board of directors; three appointed by the Board of Supervisors of each member County. The County appropriated \$12,470 for support of Gulf Regional Planning and Development District in fiscal year 2011.

Harrison-Jackson County Emergency Medical Service District operates in a district composed of the Counties of Harrison and Jackson and the Cities of Biloxi, Gulfport and Ocean Springs. The district's board is composed of five members, one appointed by each government. The County provided no financial support to Harrison-Jackson County Emergency Medical Service District in fiscal year 2011.

Mississippi Gulf Coast Community College operates in a district composed of the Counties of George, Harrison, Jackson and Stone. The college's board of trustees is composed of 23 members; three each appointed by George and Stone counties, eight each appointed by Harrison and Jackson counties, and one appointed at large. The County appropriated \$8,017,867 for maintenance and support of the college in the fiscal year 2011.

Mississippi Regional Housing Authority IV operates in a district composed of the Counties of Covington, Forrest, George, Greene, Hancock, Harrison, Jackson, Jones, Lamar, Marion, Pearl River, Perry, Stone and Wayne. The governing body is a 15-member board of commissioners; one appointed by the Board of Supervisors of each of the member counties and one appointed at large. The counties generally provide no financial support to the organization.

Jackson County, Mississippi
Notes to the Financial Statements
For the Year Ended September 30, 2011

(16) Defined Benefit Pension Plan

Plan Description. Jackson County, Mississippi, contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing, multiple-employer, defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. Benefit provisions are established by state law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to Public Employees' Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005 or by calling 1-800-444-PERS.

Funding Policy. PERS members are required to contribute 9% of their annual covered salary, and the County is required to contribute at an actuarially determined rate. The rate at September 30, 2011 was 12% of annual covered payroll. The contribution requirements of PERS members are established and may be amended only by the State of Mississippi Legislature. The County's contributions (employer share only) to PERS for the years ending September 30, 2011, 2010 and 2009 were \$3,114,702, \$2,828,380, and \$2,745,468, respectively, equal to the required contributions for each year.

(17) Subsequent Events

Events that occur after the Statement of Net Assets date but before the financial statements are available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the Statement of Net Assets date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the Statement of Net Assets date require disclosure in the accompanying notes. Management of Jackson County evaluated the activity of the County through February 4, 2013, (the date the financial statements were available to be issued), and determined that the following subsequent events have occurred and require disclosure in the notes to the financial statements:

Subsequent to September 30, 2011, the County issued the following debt obligations:

<u>Issue Date</u>	<u>Interest Rate</u>	<u>Issue Amount</u>	<u>Type of Financing</u>	<u>Source of Financing</u>
11/29/2011	2.00%	3,775,000	Refunding Bond	Tax Revenue
2/9/2012	2.0-3.375%	3,090,000	Refunding Bond	Tax Revenue
6/1/2012	1.69%	3,000,000	General Obligation Note	Tax Revenue

On June 12, 2012 the U.S. Department of Homeland Security, Federal Emergency Management Agency, fully cancelled the \$10,500,000 FEMA Community Disaster Loan along with accrued interest. The cancellation was authorized under the provisions of the U.S. Troop Readiness, Veterans Care, Katrina Recovery and Iraq Accountability Appropriations Act of 2007.

JACKSON COUNTY
Notes to the Required Supplementary Information
For the Year Ended September 30, 2011

A. Budgetary Information.

Statutory requirements dictate how and when the county's budget is to be prepared. Generally, in the month of August, prior to the ensuing fiscal year beginning each October 1, the Board of Supervisors of the county, using historical and anticipated fiscal data and proposed budgets submitted by the Sheriff and the Tax Assessor and Tax Collector for his or her respective department, prepares an original budget for each of the Governmental Funds for said fiscal year. The completed budget for the fiscal year includes for each fund every source of revenue, each general item of expenditure, and the unencumbered cash and investment balances. When during the fiscal year it appears to the Board of Supervisors that budgetary estimates will not be met, it may make revisions to the budget.

The county's budget is prepared principally on the cash basis of accounting. All appropriations lapse at year end, and there are no encumbrances to budget because state law does not require that funds be available when goods or services are ordered, only when payment is made.

B. Basis of Presentation.

The Budgetary Comparison Schedule – Budget and Actual (Non-GAAP Basis) presents the original legally adopted budget, the final legally adopted budget, actual amounts on a budgetary (Non-GAAP Basis) and variances between the final budget and the actual amounts. The schedule is presented for the General Fund and each major Special Revenue Fund. The Budgetary Comparison Schedule – Budget and Actual (Non-GAAP Basis) is a part of required supplemental information.

C. Budget/GAAP Reconciliation.

The major difference between the budgetary basis and the GAAP basis are:

1. Revenues are recorded when received in cash (budgetary) as opposed to when susceptible to accrual (GAAP).
2. Expenditures are recorded when paid in cash (budgetary) as opposed to when susceptible to accrual (GAAP).

The following schedule reconciles the budgetary basis schedules to the GAAP basis financial statements for the General Fund and each major Special Revenue Fund:

	Governmental Fund Types	
	General Fund	Road Fund
Budget (Cash Basis)	\$ 630,570	2,248,592
Increase (Decrease)		
Net adjustments for revenue accruals	263,703	(127,304)
Net adjustments for expenditure accruals	74,462	474,845
GAAP Basis	\$ 968,735	2,596,133

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

February 4, 2013

To the Members of the Board of Supervisors
Jackson County, Mississippi

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Jackson County, Mississippi, as of and for the year ended September 30, 2011, which collectively comprise Jackson County's basic financial statements and have issued our report thereon dated February 4, 2013. Our report includes an adverse opinion on the aggregate discretely presented component units due to the omission of the discretely presented component units which are required by accounting principles generally accepted in the United States of America to be reported with the financial data of the County's primary government unless the County also issues financial statements for the financial reporting entity that include the financial data for its component units. The report is qualified on the governmental activities because the County did not maintain adequate subsidiary records documenting the existence, completeness and valuation of capital assets as required by accounting principles generally accepted in the United States of America. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of Jackson County, Mississippi is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Jackson County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Jackson County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Jackson County's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies, or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and questioned costs, we identified

certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs to be material weaknesses as 2011-1, 2011-2, 2011-3.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Jackson County's financial statements are free of material misstatement, we performed tests of it compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing and opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain matters that we reported to the management of Jackson County, Mississippi, in the Independent Auditor's Report on Central Purchasing System, Inventory Control System and Purchase Clerk Schedules and the Limited Internal Control and Compliance Review Management Report dated February 4, 2013, included within this document.

Jackson County's response to the findings identified in our audit is described in the accompanying auditee's corrective action plan. We did not audit Jackson County's response and, accordingly, we express no opinion of it.

This report is intended solely for the information and use of management, Board of Supervisors, others within the entity, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB A-133

February 4, 2013

To the Members of the Board of Supervisors
Jackson County, Mississippi

Compliance

We have audited Jackson County's compliance with the types of compliance requirements described in the OMB *Circular A-133 Compliance Supplement* that could have direct and material effect on each of Jackson County's major federal programs for the year ended September 30, 2011. Jackson County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contract, and grants applicable to each of its major federal programs is the responsibility of Jackson County's management. Our responsibility is to express an opinion on Jackson County's compliance based on our audit.

Except as discussed in the following paragraph, we conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Jackson County's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Jackson County's compliance with those requirements.

As described in item 2011-4 in the accompanying schedule of findings and questioned costs, Jackson County, did not comply with requirements regarding equipment and real property management that are applicable to its Hazard Mitigation Grant. Compliance with such requirements is necessary, in our opinion, for Jackson County, to comply with the requirements applicable to that program.

In our opinion, except for the noncompliance described in the preceding paragraph, Jackson County, complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2011.

Internal Control Over Compliance

Management of Jackson County, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Jackson County's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Jackson County's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified a deficiency in internal control over compliance that we consider to be a material weakness.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2011-4 to be a material weakness.

Jackson County's response to the finding identified in our audit is described in the accompanying auditee's corrective action plan. We did not audit Jackson County's response and, accordingly, we express no opinion on the response.

This report is intended solely for the information and use of management, the Board of Supervisors, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON CENTRAL PURCHASING SYSTEM, INVENTORY CONTROL SYSTEM AND PURCHASE CLERK SCHEDULES (REQUIRED BY SECTION 31-7-115, MISS. CODE ANN. (1972))

February 4, 2013

Members of the Board of Supervisors
Jackson County, Mississippi

We have examined Jackson County, Mississippi's (the County) compliance with establishing and maintaining a central purchasing system and inventory control system in accordance with Sections 31-7-101 through 31-7-127, Miss. Code Ann. (1972) and compliance with the purchasing requirements in accordance with the bid requirements of Section 31-7-13, Miss. Code Ann. (1972) during the year ended September 30, 2011. The Board of Supervisors of Jackson County, Mississippi is responsible for the County's compliance with those requirements. Our responsibility is to express an opinion on the County's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the County's compliance with those requirements and performing other procedures as we considered necessary in the circumstances. We believe our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the County's compliance with specified requirements. The Board of Supervisors of Jackson County, Mississippi, has established centralized purchasing for all funds of the county and has established an inventory control system. The objective of the central purchasing system is to provide reasonable, but not absolute, assurance that purchases are executed in accordance with state law.

The County did not maintain adequate subsidiary records documenting the existence, completeness and valuation of capital assets.

Because of inherent limitations in any central purchasing system and inventory control system, errors or irregularities may occur and not be detected. Also, projection of any current evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

The results of our audit procedures disclosed certain instances of noncompliance with the aforementioned code sections. These instances of noncompliance were considered in forming our opinion on compliance. Our findings and recommendations and your responses are disclosed below:

1. Finding

Section 31-7-107, Miss. Code Ann. (1972), requires the Inventory Control Clerk to maintain an accurate inventory system. As reported in the prior three year's audit reports, capital asset control procedures were inadequate for maintaining subsidiary records documenting the existence, completeness and valuation of capital assets, including the county's infrastructure. Accordingly, the appropriate amount for depreciation expense has not been recorded on the capital assets. The county's lack of documentation indicates material weaknesses in the county's internal control related to capital assets. Therefore, the Independent Auditor's Report includes a qualified opinion on the governmental activities. Failure to properly address these issues could result in the loss or misappropriation of public funds, as well as potential misstatements of financial statement amounts.

Recommendation

The Inventory Control Clerk should implement policies and procedures to maintain accurate inventory records documenting the existence, completeness and valuation of capital assets, including the county's infrastructure. To ensure that records are accurate and complete, the Inventory Control Clerk should work with all involved department managers and other individuals as necessary to perform a comprehensive physical inventory on an annual basis.

Inventory Control Clerk's Response

The Inventory Control Clerk is working diligently to correct this problem and bring all infrastructures into the county's financial statements.

In our opinion, except as explained in the third paragraph and except for the noncompliance referred to in the preceding paragraph, Jackson County, Mississippi complied in all material respects, with state laws governing central purchasing, inventory and bid requirements for the year ended September 30, 2011.

The accompanying schedules of (1) Purchases Not Made from the Lowest Bidder, (2) Emergency Purchases and (3) Purchases Made Noncompetitively from a Sole Source are presented in accordance with Section 31-7-115, Miss. Code Ann. (1972). The information contained on these schedules has been subjected to procedures performed in connection with our aforementioned examination of the purchasing system and, in our opinion, is fairly presented when considered in relation to that examination.

Jackson County's response to the finding included in this report was not audited, and accordingly, we express no opinion on it.

This report is intended for use in evaluating the central purchasing system and inventory control system of Jackson County, Mississippi, and is not intended to be and should not be relied upon for any other purpose. However, this report is a matter of public record and its distribution is not limited.

LIMITED INTERNAL CONTROL AND COMPLIANCE REVIEW MANAGEMENT REPORT

February 4, 2013

Members of the Board of Supervisors
Jackson County, Mississippi

In planning and performing our audit of the financial statements of Jackson County, Mississippi for the year ended September 30, 2011, we considered Jackson County, Mississippi's internal control to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on internal control.

In addition, for areas not considered material to Jackson County, Mississippi's financial reporting, we have performed some additional limited internal control and state legal compliance review procedures as identified in the state legal compliance audit program issued by the Office of the State Auditor. Our procedures were substantially less in scope than an audit, the objective of which is the expression of an opinion on the county's compliance with these requirements. Accordingly, we do not express such an opinion. This report does not affect our report dated February 4, 2013, on the financial statements of Jackson County, Mississippi.

Due to the reduced scope, these review procedures and compliance tests cannot and do not provide absolute assurance that all state legal requirements have been complied with. Also, our consideration of internal control would not necessarily disclose all matters within the internal control that might be weaknesses. In accordance with Section 7-7-211, Miss. Code Ann. (1972), the Office of the State Auditor, when deemed necessary, may conduct additional procedures and tests of transactions for this or other fiscal years to ensure compliance with legal requirements.

The results of our review procedures and compliance tests identified certain areas that are opportunities for strengthening internal controls and operating efficiency. Our findings, recommendations, and your responses are disclosed below:

Board of Supervisors.

Federal Grant Activity Schedule

1. Finding

An effective system of internal control over federal grants includes properly identifying all revenues and expenditures, including accruals, on the federal grant activity schedule. The County prepared a Schedule of Expenditures of Federal Awards however, the Schedule had many errors. The failure to

properly complete the Schedule increases the possibility of reporting incorrect amounts of federal expenditures, as well as the possibility of excluding a federal grant on the Schedule of Expenditures of Federal Awards.

Recommendation

The County should properly complete the Schedule of Expenditures of Federal Awards.

Board of Supervisors' Response

Jackson County will properly complete the federal grant activity schedule.

Sheriff.

Deposit Detail

2. Finding

Currently the Sheriff's bookkeeper does not provide detailed deposit slips, making it difficult to trace payment from receipt to bank account.

Recommendation

The bookkeeper needs to detail what receipts are included in the deposit in order to assure that complete, timely and accurate deposits are made.

Sheriff's Response

We will make detailed deposit slips in accordance with recommendation of auditor.

3. Finding

Currently the Sheriff's bookkeeper orders receipt books, and no method of keeping an inventory of receipt books is maintained.

Recommendation

As with other departments located in the County, we suggest the Chancery Clerk's office or the Finance Department handle the ordering and inventory of receipt books to help alleviate issues relating to proper controls over receipt books.

Sheriff's Response

We will comply with recommendation of auditor's finding.

4. Finding

Settlements made to the County need to be made in a timely manner. During auditor test work, it was noted that some months of collections were not turned over to the County until several months later.

Recommendation

Settlements to the County of monies collected in Sheriff's department need to be made timely.

Sheriff's Response

Settlements to the County will be made on a timely basis.

Board of Supervisors.

Settlements to Community College

5. Finding

Current year settlements to the community college are not equal to at least the prior year amounts paid.

Recommendation

Per Attorney General's opinion No. 2005-0417, Counties must ensure that current year settlements to community colleges are at least equal to prior year dollar amounts; therefore, we recommend the County comply with the Attorney General's opinion.

Board of Supervisors Response

We will comply with Attorney General's opinion No. 2005-0417.

Jackson County's responses to the findings included in this report were not audited, and accordingly, we express no opinion on them.

This report is intended solely for the information and use of management, the Board of Supervisors, and others within the entity and is not intended to be and should not be used by anyone other than these parties. However, this report is a matter of public record and its distribution is not limited.

Wesley Ward Totten & Son

JACKSON COUNTY
Schedule of Findings and Questioned Costs
For the Year Ended September 30, 2011

Section 2: Financial Statement Findings

Board of Supervisors.

Significant Deficiency – Material Weakness

Financial data for component units should be include in the financial statements.

2011-1 Finding

Generally accepted accounting principles require the financial data for the County's component units to be reported with financial data of the County's primary government unless the County also issues financial statements for the financial reporting entity that include the financial data for its component units. As reported in the prior four years' audit reports, the financial statements do not include the financial data for the County's legally separate component units. The failure to properly follow generally accepted accounting principles resulted in an adverse opinion on the discretely presented component units.

Recommendation

The Board of Supervisors should provide the financial data for its discretely presented component units for the inclusion in the County's financial statements.

Inventory Control Clerk.

Significant Deficiency – Material Weakness

The Board should implement controls to prevent and detect inconsistencies in the subsidiary ledgers for capital assets.

2011-2 Finding

An effective system of internal controls over capital assets includes the maintenance of an accurate inventory system. As reported in the three prior years' audit reports, capital asset control procedures were inadequate for maintaining subsidiary records documenting the existence, completeness and valuation of capital assets, including the County's infrastructure. Accordingly, the appropriate amount for depreciation expense has not been recorded on the capital assets. The County's lack of documentation indicates material weaknesses in the County's internal control related to capital assets. Therefore, the Independent Auditor's Report includes a qualified opinion on the governmental activities. Failure to properly address these issues could result in the loss or misappropriation of public funds, as well as potential misstatements of financial statement amounts.

Recommendation

The Inventory Control Clerk should implement policies and procedures to maintain accurate inventory records documenting the existence, completeness and valuation of capital assets, including the County's infrastructure. To ensure that records are accurate and complete, the Inventory Control Clerk should work with all involved department managers and other individuals as necessary to perform a comprehensive physical inventory on an annual basis.

JACKSON COUNTY
Schedule of Findings and Questioned Costs
For the Year Ended September 30, 2011

Tax Collector.

Significant Deficiency – Material Weakness

Segregation of Duties

2011-3 Finding

During auditor's field work it was noted the Assistant Tax Collector was using the Tax Collector's stamp to sign checks, along with signing her name to the checks as well. Also noted, some checks had only one signature, when Tax Collector's office policy requires two valid check signers. The Tax Collector does not review bank statements, bank reconciliations, checks written and related back up data supporting disbursements.

Recommendation

In order to mitigate the possibility of misappropriation of funds, it is necessary to maintain adequate separation of duties. The Tax Collector should not allow the Assistant Tax Collector to have access and use his signature stamp. The Tax Collector should review bank statements and reconciliations and sign off as being reviewed. The Tax Collector should also review supporting documentation while signing checks and sign off approving invoice for payment. Checks should always have two authorized signatures.

Section 3: Federal Award Findings and Questioned Costs

2011-4 Finding

CFDA #97.039 Hazard Mitigation Grant
Grant Number – 1604-0204
U.S. Department of Homeland Security

Significant Deficiency – Material Weakness
Material Noncompliance

Compliance Requirement: Equipment and Real Property Management – Controls Over Equipment and Real Property Management Should Be Strengthened.

The OMB *Circular A-133 Compliance Supplement* specifies that title to equipment acquired by a non-federal entity with federal awards vests with the non-federal entity. Furthermore, subrecipients of states who are local governments shall use, manage and dispose of equipment acquired under a subgrant from a state in accordance with state laws and procedures. As reported in the prior two year's audit report, several parcels of land, and the buildings located on them, were not included in the County's inventory system. As a result, the land and the homes located on the land were not properly accounted for as land and buildings of the County.

Recommendation

The Jackson County Board of Supervisors should take steps to ensure that controls are in place to make certain that all equipment and real property acquired with federal funds are properly accounted for in the County's capital assets records, as required.

AUDITEE'S CORRECTIVE ACTION PLAN AND SUMMARY
SCHEDULE OF PRIOR YEAR AUDIT FINDINGS

CORRECTIVE ACTION PLAN

February 4, 2013

Wright Ward Hatten & Guel, CPAS
P.O. Box 129
Gulfport, MS 39502

Gentlemen:

Jackson County respectfully submits the following corrective action plan for the year ended September 30, 2011.

The findings from the Schedule of Findings and Questioned Costs are discussed below. The findings are numbered consistently with the numbers assigned in the schedule. Section 1: Summary of Auditor's Results, does not include findings and is not addressed.

SECTION 2: FINANCIAL STATEMENT FINDINGS

11-1 Corrective Action Planned:

The Board of Supervisors will provide financial data for its discretely presented component units for inclusion in the county's financial statements.

Anticipated Completion Date: September 2013

Name of Contact Person Responsible for Corrective Action:

Josh Eldridge, Comptroller

11-2 Corrective Action Planned:

Inventory Control Clerk is working diligently to correct this problem and bring all infrastructure into the county's financial statements.

Anticipated Completion Date: September 2012

Name of Contact Person Responsible for Corrective Action:

Jon Lumm, Inventory Control Manager

11-3 Corrective Action Planned:

Jackson County Tax Collector's Office has restructured to better segregate responsibilities. The Assistant Tax Collector will not have access to and use the signature stamp. Policies and procedures are now in place to correct the finding.

Anticipated Completion Date: December 2012

Name of Contact Person Responsible for Corrective Action:

Joe Tucker, Tax Collector

SECTION 3: FEDERAL AWARD FINDINGS

11-4 Corrective Action Planned:

Planning department will forward to inventory control all relevant information to accomplish this task upon receipt of closing documents.

Anticipated Completion Date: March 2013

Name of Contact Person Responsible for Corrective Action:

Jon Lumm, Inventory Control Manger and Michele Coats, Planning Director

Sincerely yours,

Josh Eldridge
Comptroller

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
For the Year Ended September 30, 2011

Gentlemen:

Jackson County respectfully submits the following summary of prior audit findings relative to federal awards.

U.S. DEPARTMENT OF HOMELAND SECURITY

2010 – Finding 10-4 CFDA #97.039 – Hazard Mitigation Grant – Grant Number – 1604-0080

Condition: The county did not ensure that the St. Martin Project was administered in compliance with federal requirements. The county's lack of adequate internal controls would result in the misappropriation of federal funds.

Recommendation: The Board of Supervisors should establish policies and procedures to ensure the compliance with subrecipient monitoring.

Current Status: Projects are being monitored correctly. Funding is released upon presentation of proper documentation by subrecipient.

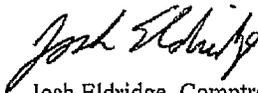

2010 – Finding 10-5 CFDA #97.039 – Hazard Mitigation Grant – Grant Number – 1604-0204

Condition: During audit testing procedures, parcels of land and buildings located on them, were no included in the county's inventory system. As a result, the land and buildings were not properly accounted for as land and buildings for the county.

Recommendation: The Jackson County Board of Supervisors should take steps to ensure that controls are in place to make certain all equipment and real property acquired with federal funds are properly accounted for in the county's capital assets records, as required.

Current Status: The planning department forwards to inventory control all relevant information to accomplish this task upon receipt of closing documents.

Sincerely,
Jackson County, Mississippi

Josh Eldridge, Comptroller
