

Ocean Springs Harbor Bulkhead

Tidelands Grant Funding

This project consists of repairs and maintenance to Ocean Springs Harbor preventing further deterioration of the bulkhead and reducing erosion. Completed work on this project is necessary to ensure safe navigable waters within the harbor for both the general public and commercial boating traffic, and to provide safe access for the community by regrading and resurfacing the access road and parking area.

Project completed May 2015

Estimated Grant Funds \$500,000

Other Sources \$45,000
